When step on the foot-operated switch for a moment,

1. Pressurization is released immediately.  
→ Self-hold works with starting of energization.
2. Pressurization is not released.  
→ Self-hold works since the squeeze time.

We will manufacture the slide unit to fit sample nut you supplied to us.

Check the bottom of the welding machine.  
If you use a nut feeder, check the connector between nut feeder and welding machine.

Please take a picture so that we can see the size of a connector and the number of pins.
